

FLYNN SAUNDER

Clayton, VIC 3168 | 0492 869 686 | flynnsaunder@icloud.com | <https://www.linkedin.com/in/flynn-saunder/>

EDUCATION

Bachelor of Engineering (Honours), Mechanical Engineering | *Monash University* 2025 – 2028 (Expected)
Relevant units: Dynamics 1, Design 1, Modelling and Control, Thermofluids, Engineering Numerical Analysis

TECHNICAL SKILLS

CAD & Design: SolidWorks & OnShape **Analysis & Programming:** MATLAB, Python, introductory FEA
Professional: Technical reporting & presentations, project/budget management, stakeholder negotiation

RELEVANT EXPERIENCE

Chassis and Drivetrain Engineer | *Monash Human Power* Aug 2025 – Nov 2025

- Contributed to a 120+ member, Monash-endorsed student engineering team designing and building the fastest human-powered vehicle possible for the Victorian HPV Series
- Produce CAD models and drawings in SolidWorks and carry out introductory FEA on chassis and drivetrain components as part of a 40-person sub-team
- Author design reports and deliver technical progress presentations to team leads

Vice President | *Mannix College Student Society* Sept 2025 – Present

- Elected leader of a 14-person, six-portfolio committee running the social, sporting, cultural and wellbeing calendar for 600+ residents
- Managed the \$80k annual MCSS Ball end-to-end, negotiating venue and entertainment contracts to deliver record attendance (600+) and the largest net profit in society history (\$10k)
- Co-authored the society's first five-year strategic plan and negotiated an MOU formalising its institutional partnership with College administration
- Secured and managed corporate sponsorships (Red Bull Australia, Zuum Gum) and oversaw fortnightly functions with budgets of up to \$10k
- Reviewed tenders and interviewed contractors as resident advisor on a multi-million dollar College renovation project, which won the APSAA Best Development Award

OTHER EXPERIENCE

Hospitality & Customer Service — Bartender, Waiter and related front-of-house roles across multiple venues (2021 – Present)
